A dog's nutritional needs vary according to its breed, age, size, activity and environment. Start with this recommended amount and then vary according to your dog's appetite and body condition. If you have a hardworking dog, or a dog exposed to cold weather, these additional factors should be taken into consideration. Clean, fresh water needs to be available at all times. **Loyal® Puppy Formula 31/20 is formulated to meet the nutritional levels established by the AAFCO Dog Food Nutrient Profile for Growth.**

**Amount per day is measured in cups. 1 cup = 8 ounce measuring cup
